Florist

These guidelines are provided for your guidance in decorating.

1. Flowers, candles and other decorations should not interfere with the appropriate movement of the pastor or any other participant. Large sheets of plastic must be used under candles to protect carpet/floors and furnishings.
2. Floral arrangements and decorations are to be in place in the Sanctuary at least two hours before the appointed time of the wedding.
3. All decorations must be removed from the church immediately following the wedding activities so as not to interfere with any other activity of the church.
4. No tacks or nails may be used in or on any church property or furnishings.
5. The pulpit, the lectern and symbols of religious significance are not to be moved.
6. Candles should be carefully arranged when used with greenery in order to prevent the possibility of a fire.
7. No decorations of any type are to be placed on the piano or organ.

Please read and sign this letter. The letter should be returned to the church office at least one week before the wedding.
